SEASON

1954

OUR 20th SEASON CATALOGUE

SEASON 1954

Greetings, Friends:

Thanks again for past favors. They were deeply appreciated and we hope that we shall continue to receive them.

This being our 20th anniversary as a Glad grower, we are inviting you to help us celebrate, in so doing we are going to offer a few Do's and Don'ts for your Glad Garden.

First: open package as soon as received. Examine your bulbs, and, if you are not ready to plant, store them in your vegetable cellar, or a place where it is not too warm or too cold.

Second: all Glad bulbs must be dipped before planting in order to kill any thrips or disease that may be on them. We use Lysol. One and one-half tablespoonsful per gallon of water. Soak bulbs three hours just before planting. Any water container will do for soaking.

Third: after your soil has been prepared in the Spring of the year, furrow out your rows and scatter in the bottom of the trench, a good Commercial fertilizer such as

being sold in your community for vegetables. Mix fertilizer well with the soil and cover with two inches of soil. Now you are ready to plant your bulbs. Set large bulbs about five inches deep and five inches apart; other size bulbs in proportion, with the smallest about two inches deep and two inches apart.

Fourth: do not plant near building, heavy rooted plants such as trees, etc. Cultivate frequently enough to keep soil loose, and free from weeds, not deep, and after every heavy rain or watering.

Fifth: spraying and dusting for thrip adults are small black insects about 1/16 of an inch long) we have used the two following formulas:

DDT Spray — 2 rounded teaspoonsful DDT (50%) wettable; 1 teaspoonful Dreft; 2 gallons water, mix and spray every week or ten days when foliage is about 8 or 10 inches high.

DDT Dust for thrip 5% DDT dust and we use a roto dust gun. This is the quickest and easiest control. Not as effective as spraying but very much faster.

Dust once in about every 10 days after foliage is 8 to 10 inches high. Do not use DDT dust on blooms as it will spot.

A good idea is to sprinkle bulbs with 5% DDT dust while bulbs are in storage.

Sixth: when cutting blooms be sure and leave at least four leaves so as to mature the bulb. Bulbs should be dug as soon as the foliage starts to become yellow or about five weeks or so after blooming date or after frost. Dig bulbs when the soil is dry if possible using a digging fork, and lifting bulbs by the foliage. Cut off the tops close to the bulbs shaking out loose dirt. Place bulbs in shallow wooden trays or clean paper bags, marking each variety.

Seventh: curing and cleaning bulbs; remove all bulbs to a warm dry place where there is a good circulation of air. After a period of three or four weeks, or when bulbs are properly dried, old bulb is easily broken away from the base of the new bulb. Be sure and leave husk on bulb, as this is a protection in storing. Ideal storage temperature is between 34 and 45 degree F., or in a good vegetable cellar.

Terms of sale: cash with order, or twenty-five per cent with the balance paid C. O. D. Cash must accompany wholesale orders wanted by parcel post AS THESE ARE NOT PREPAID. If you should send more than the carrying charges, we shall make refunds. No order for less than two dollars and no item for less than ten cents please. We have made our prices low enough so as to eliminate all confusing discounts. We are liberal with our overcounts. All retail orders will be send prepaid. If out of size wanted, we will ship next size, giving equal or better value.

These are State inspected bulbs. We try to observe the fact that making friends is very essential to our business.

Sincerely yours,
Taylor Gardens

DEBUTANTE, light yellow shading to deep orange on outer edge of petals, very early and well liked.	2 10	.15 .65	3—.15 .40 Pkg.—.15
<hr/>					
DIEPPE, an outstanding salmon scarlet, florets 5" in diameter, very tall cut flower.	2 10	.20 .80	3—.20 .5035 Pkg.—.15
EARLY CERISE, tall growing cerise opens 6 or 7 blooms, on a tall spike, stock limited.	1	.25	2—.35	3.35	Pkg.—.25
EARLY LAVENDER, one of the first lavenders to bloom; opens 5 to 6 good size blooms on a nice spike.	2 10	.20 .80	3—.20 .5030	Pkg.—.20
ELANORA, some call this maroon red, but dark wine best describes the color, 6 to 8 large blooms opens at once, very good.	2 10	.20 .80	3—.20 .6035 Pkg.—.20
ELIZABETH THE QUEEN, very beautiful lavender with reddish feather in the throat, nicely ruffled petals and needlepoint.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
<hr/>					
EVANGELINE, tall beautiful light rose blending into a cream throat; open 8 to 10 blooms on a nice spike.	2 10	.20 .80	3—.20 .5035 Pkg.—.20
FLORENCE NIGHTINGALE, easy growing tall white with a faint cream throat opens 6 to 8 perfectly placed large blooms; very good.	2 10	.20 .80	3—.20 .5035 Pkg.—.20
FRIENDSHIP, a very early pink and nicely ruffled. Opens 6 to 7 nice well placed blooms on a tall spike, beautiful variety a must on account of its early bloom.	2 10	.20 .80	3—.20 .6035 Pkg.—.25
GAIL, tall lavender opens 6 to 8 large florets on a tall spike, very fine variety.	1	.50	1—.30
GAY LADY, early and very tall mauve lavender; opens up to 6 large florets with many showing color.	2 10	.15 .65	3—.15 .4025 Pkg.—.15

	Per	Large	Medium	Small	Bulblets Per
GENE, a very attractive variety with perhaps the most frilled and ruffled florets of any yellow. Certainly is beautiful.	2 10	.30 1.20	3—.25 .9060	10—.25 100—1.25
GENERAL EISENHOWER, deep rose and good clear shade, blooms extra large, sometimes reaches 7 inches in diameter. This is an excellent cut flower and in great demand.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
GIANT CYCLAMAN, a clear cyclaman rose opens 6 to 8 large blooms on a good spike. This is proving to be a good cut flower in this rare color.	2 10	.20 .80	3—.25 .6035	10—.20 100—1.25
G. K. GWILLIAM, large growing clear yellow, a New Zealand variety.	1	.20	2—.30	10—.25
GLAMAZON, very tall rich rose pink with white vein marking; opens 5 to 6 blooms.	2 10	.20 .80	3—.20 .6040 Pkg.—.25
GLENARDY, very large slightly ruffled tan, with the outer petals shading to maroon, with a large maroon blotch, very striking, and stock is limited.	2 10	.20 .80	3—.20 .5035 Pkg.—.20
GOLD ROD, tall strong growing buttercup yellow; opens 6 to 7 large florets on a straight stem.	2 10	.20 .80	3—.20 .5035 Pkg.—.20
GRACIE ALLEN, clear deep scarlet, opens up to 8 nice and well balanced blooms on a tall spike, very good.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
GRAND MONARCH, very tall and large spike of dark brown red with a purple shade, and deep purple blotch; has won grand championship.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
HARRY HOPKINS, a very beautiful Bordeaux wine red, slight purple marking towards the edge of petals; opens 5 to 6 good blooms, a real beauty.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
HIGH LIFE, clear light blue with a deeper blotch; tall with many open blooms; a Holland variety.	2 10	.20 .80	3—.20 .6030 Pkg.—.25
HOME BUSH, rather a hard variety to describe, buds are of old rose, but when blooms open it is silver on old rose with a very slight blotch of yellow on lower petal, a real novelty, and very pretty.	2 10	.25 1.00	3—.25 .6540 Pkg.—.20
INVICTUS, early large white with a rosy blush and a heavy scarlet blotch, very tall spike.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
IVY ROBERTSON, this is the tallest glad; grown very early and opens up to 10 good size blooms; pink with a yellow and cream throat; a real florist variety.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
JAVA, very large golden yellow, fine shaped florets on a long stem.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
JEANNE'S CHOICE, last year's introduction; medium early white with slight deep rose edging and with a purple rose blotch, opens 6 to 7 large blooms on a tall spike, very well liked.	1 10	.25 2.00	2—.35 1.30	3—.40 .80	25—.25 100—.75
J. C. VINCENT, large pink with a white blotch; opens 5 to 6 nice blooms on a tall spike.	2 10	.20 .80	3—.20 .6040 Pkg.—.25

	Per	Large	Medium	Small	Bulblets Per
J. H. SEYMORE, a tall growing ruffled scarlet red with a deeper blotch; makes a real nice spike; stocks limited.	1	.25	2—.30	3—.20	Pkg.—.25
JOHAN VON KONNYENBURG, a nice vermillion red, opens 5 to 6 nice large blooms on a good spike.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
LAVENDER LACE, ruffled lavender with a large cream throat. 5 to 6 florets open on a tall spike. Vigorous grower.	1	.25	2—.35	10—.50
LAVENDER PRINCE, a very good deep lavender with deeper lines on throat, opens up to 8 large slightly ruffled blooms.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
LEADING LADY, sensational white sport of Picardy opens 6 to 7 very large blooms on a tall spike one of the most outstanding cut flowers today, and very much in demand.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
<hr/>					
LEEUEWENHORST, very early blooms of light lilac rose, flowers of immense size, very outstanding.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
LYCIDAS, a blend of dove-gray lavender, blooms early and very much admired.	1	.20	2—.30	3—.25	10—.25
MANCHU, very tall contrasting deep orange and yellow, opens up to 7 and 9 blooms on a tall spike, a very striking combination.	2 10	.20 .80	3—.20 .5035 Pkg.—.20
MANSOER, blood red with a blackish velvet glow; this variety makes a fine spike with many blooms; one of the best in this class.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
MARGARET BEATON, standard white with a rose blotch. For years one of the leading blue ribbon winners and a widely grown cut flower.	2 10	.15 .65	3—.15 .40 Pkg.—.15
<hr/>					
MARGARET PETERS, white with a dark maroon blotch, edged with yellow, very conspicuous, 6 to 8 florets open on a tall spike.	1	.25	2—.35	3—.30	10—.25
MARIE, briarose pink with a pale primrose throat; blooms of medium size, a very dainty variety.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
MISS WISCONSIN, a beautiful rose pink; opens 6 to 8 large blooms on a tall spike, very much in demand.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
MODERN TIMES, a beautiful faint rose purple; one of the best cut flowers. Strong healthy grower.	2 10	.20 .75	3—.20 .5035 Pkg.—.25
<hr/>					
MRS. R. G. ERREY, some consider this the very best dark red of all; opens 6 to 7 large blooms on a very tall spike; certainly looks good.	2 10	.20 .80	3—.20 .6035 Pkg.—.25
MT. INDEX, a very early tall white with a yellow throat; exceptionally fine commercial, and easy grower.	2 10	.15 .65	3—.15 .4025 Pkg.—.15
NEW YORK, a deep rose, 6 to 8 open on a very tall spike. Everyone who sees this likes it fine.	2 10	.20 .90	3—.20 .7040 Pkg.—.25
ODETTE SANSOM, beautiful blending of yellow and pink with large red blotches. A Salman's Glory seedling.	2 10	.25 .90	3—.25 .6540 Pkg.—.25

	Per	Large	Medium	Small	Bulblets Per

YOU CANNOT GO WRONG ON THESE COLLECTIONS AS THEY ARE TAKEN FROM OUR REGULAR LIST OF STOCK.

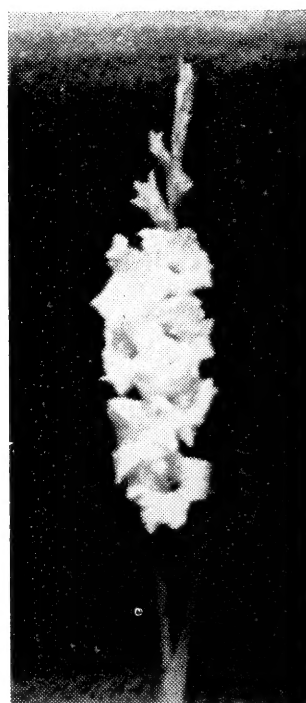

PART OF OUR PLANTING STOCK

AUNT LEA

A very clear light orange with cream white throat; under a light, it throws a slight golden tint bloom $4\frac{1}{2}$ to 5 inches on a tall spike; an excellent variety

JEANNE'S CHOICE

Last year's introduction; medium early white with slight deep rose edging and with a purple rose blotch; opens 6 to 7 large blooms on a tall spike, very well liked.
